Date & Time: 7th January 2025 at 9:00 am GMT, 10:00 am CET, 18:00 pm JST

Format: Online Talk

Description: WENDI provides a comprehensive and interdisciplinary graduate-level Higher Education for Sustainable Development (HESD) in the fields of water, energy, disaster and environmental issues. The course programs for the HESD are provided by Kyoto University researchers across institutional boundaries. The webinar will introduce WENDI activities by following five talks and discuss how to enhance international HESD.

- 1) Introduction of WENDI, Prof. Y. Tachikawa, Chairholder of WENDI
- 2) Water resources and disaster Management, Prof. T. Sayama, co-chair
- 3) Aquatic Environment & Water Quality, Prof. Y. Yamashiki, co-chair
- 4) Energy, environment and resources, Prof. B. McLellan, co-chair
- 5) Sustainable bioresource utilization and ecosystem management, Prof. K. Katsura, co-chair

This Talk is part of the Resilience Catalysts Cycle of Talks bringing together UNESCO Chairs working on DRR and resilience to share knowledge and expertise. Information concerning this Cycle of Talks can be found here: <https://resilience.uniud.it/resilience-catalysts>
